Online Resource 5

Indicator OTUs described by indicator species analysis

File key:

(valid for both Archaea and Bacteria pages)

Column A	code of the indicator OTU
Columns B-F	presence/absence of the indicator OTU in the different sampling points
index	code indicating the combination of samples in which the indicator OTUs has been reported (e.g. 1 = the considered OTU is an indicator only in S1; 6 = the considered OTU is an indicator in both S1 and S2)
IndVal	statistics calculated by Indicator Species Analysis
pFDR	p-value corrected according to the FDR procedure
Columns K-Q	taxonomic affiliation of the indicator OTUs
