Dairy herd health management activities in relation to training of veterinarians in Motivational Interviewing

C. Svensson, H. Wickström, L. Forsberg, S. Betnér, C. von Brömssen, K.K. Reyher, A.M. Bard and U. Emanuelson

Supplementary Information 1

Parts of questionnaires included in the present study. Telephone interviews with participating clients were conducted usually within two weeks after their consultation with the veterinarian (Questionnaire 1) and after a follow-up visit (Questionnaire 2), respectively.

Questionnaire 1

Farm name			
Farm number			
Name of veterinarian			
Name of client			
Date of interview		Date of visit	

Part 1 Client characteristics

Gender	<input type="checkbox"/> Female
	<input type="checkbox"/> Male

Part 2 Client's perceptions about the consultation

How satisfied are you with the attitude of the veterinarian during the visit ?	Likert scale 1-6, from very dissatisfied to very satisfied	
How satisfied are you with the competence of the veterinarian during the visit ?	Likert scale 1-6, from very dissatisfied to very satisfied	

How satisfied are you with the time efficiency of the veterinarian during the visit ?	Likert scale 1-6, from very dissatisfied to very satisfied	
---	--	--

Part 3 Client's perceptions about the herd health plan or discussion

I was very much involved in setting up the plan/discussing preventive measures.	Likert scale 1-6, level of agreement from strongly disagree to strongly agree	
How likely is it that you will implement the herd health plan/the preventive measures you discussed?	Likert scale 1-6, from very unlikely to very likely	

Questionnaire 2

Farm name			
Farm number			
Name of veterinarian			
Name of client			
Date of interview		Date of follow-up visit	

Part 1 Client characteristics

Gender	<input type="checkbox"/> Female <input type="checkbox"/> Male
--------	--

Part 2 Client's perceptions about the advisory process

How satisfied are you with the attitude of the veterinarian in his/her counselling during the past 6 months ?	Likert scale 1-6, from very dissatisfied to very satisfied	
How satisfied are you with the competence of the veterinarian in his/her counselling during the past 6 months ?	Likert scale 1-6, from very dissatisfied to very satisfied	

How satisfied are you with the time efficiency of the veterinarian in his/her counselling during the past 6 months?	Likert scale 1-6, from very dissatisfied to very satisfied	
How satisfied are you with the information given by the veterinarian in his/her counselling during the past 6 months?	Likert scale 1-6, from very dissatisfied to very satisfied	
The veterinarian helps me to see my and my farm's strengths.	Likert scale 1-6, level of agreement from strongly disagree to strongly agree	
The veterinarian helps me to see my and my farm's opportunities.	Likert scale 1-6, level of agreement from strongly disagree to strongly agree	
The veterinarian asks me about the goals for my enterprise and for animal health.	Likert scale 1-6, level of agreement from strongly disagree to strongly agree	
The veterinarian is curious about my views, thoughts and solutions to the areas/problems we discuss.	Likert scale 1-6, level of agreement from strongly disagree to strongly agree	
The veterinarian has an interest in helping me improve the animal health on the farm according to ways I have chosen.	Likert scale 1-6, level of agreement from strongly disagree to strongly agree
