United Kingdom
21 Sep 2021 → 22 Mar 2026

Prizes

Excellent graduate

Tozzi, Edoardo (Recipient), 2017

Research interests

I am currently doing my PhD in eSports gambling advertising on social media using a neuroscientific approach. I also worked on a research project with prof. Lucia Mannetti on economic games and social dilemmas, and with prof. Alessandra Talamo on the ReCRED project. Moreover, I worked on two different research projects on Artificial Intelligence where I investigated how users perceive smart agents and to which extent virtual assistants like Siri can influence consumer behaviour.
